EVANGELISTIC  
ASSOCIATION

**Let the whole “earth be  
filled with His glory!”**

**Psalm 72:19**

**November 25, 2019 Volume 30 Issue 4**

Milton (pictured above) graduated from HEA's School of Front Line Missions in May 2019. He has since been working as his churches own Missionary Church Planter ... He works under his own national pastor sharing Jesus with the people of his own country, in his own communities, in his own language ... In the picture Milton was sharing the good news of Jesus with a man so lost in hopelessness. The man shared with Milton that he had been drinking so much that he lost everything, including his wife and his children. The man was living on the streets where he met Milton sharing the gospel and found new life in Jesus!! (read more of Milton's story inside) ...

## “Vision Driven Missions”

Milton (pictured to the left with his pastor) graduated from his University with a Engineering Degree but felt that God was calling him into ministry. Pastor Candido sent him to our school to prepare him to be their own missionary.

Since Milton graduated in 2019 from our School of Front Line Missions he has been training his church's outreach team in personal evangelism and church planting. He has also been holding seminars in the University to share the gospel with the student body ... Through these outreach seminars he has seen the University's Assistant Director and Career Director both come to know Jesus. They are both now attending his church!!

- **Milton's Pastor & his wife once told us that ...**

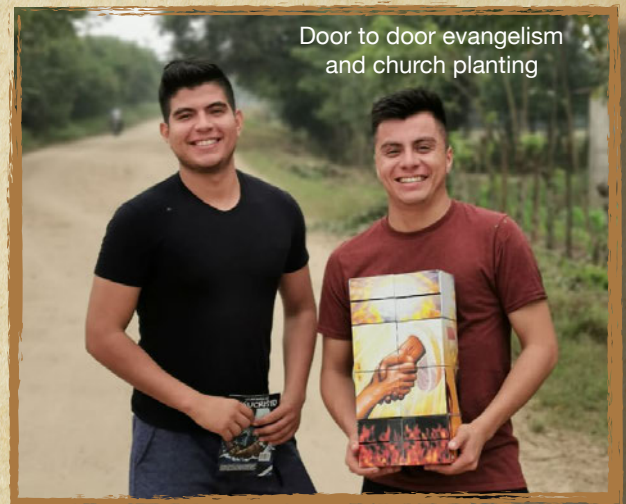

**...“Milton grew more in the first 3 months at HEA's School of Missions than he did in 5 years in our church!”**

Milton Training His Team in Evangelism

Door to door evangelism and church planting

While the students are in our school we prepare them to evangelize the lost and help their church leadership disciple the new believers...

Every year we also bring in the very best guest teachers that there are for Drama Ministry, Clown Ministry, Children's Ministry, etc... We want to equip our student missionaries with amazing tools to help them reach entire families with the gospel!

In the picture to the left you can see Milton riding on a city bus & sharing the gospel with the large Evangelicube that we give them when they graduate.

In the picture below, Milton is prepping his team to share the gospel & pray with with the patients & their families at the government hospital. The Hospital Administration welcomed them with open arms!!

Our students are not only taught to preach, teach, & grow new believers but they are also taught by HEA's Technical Director Mark (right) how to use & maintain cutting edge technologies to advance the gospel...

Sound systems, video projectors, generators, etc are a critical part of this new generation of front line missionaries as they press into the harvest, reaching the lost, wherever they are!!

Leonardo (below) teaching the EvangeCube class.

Our students go out every weekend deep into the mountains with their field trainers to work in church planting. In the picture (below left) you see the students with their new sleeping bags, covers & pads... At HEA's school they will be tested beyond anything they ever imagined!!

Angelica (bottom left) HEA Teacher & Field Trainer packing students deep into the remote mountains!

When the students arrive into the communities they hold evangelistic outreaches using clowns, dramas, puppets, evangelistic films & preaching the gospel... The students are also taught how to prepare the counselors so that they can train counselors for their own churches once they graduate.

Hector (picture left) is one of our Teachers and also a Field Trainer... They had just finished the invitation for salvation and you can see that whole families are coming to Jesus!!

Pictures below of families coming to Jesus! Thank you all!
